

*Culpepper Reviv'd*  
 BEING AN  
 ALMANACK  
 for the Year of our  
 BLESSED SAVIOURS

Incarnation 1687.

And from the Creation of the World according  
 to the best of Ecclesiastical History 5636.

Being the Third after Bissextile or Leap-year.

Wherein is briefly shewed, the general State of the Year,  
 the Solar ingresses, Eclipses, Full Sea at London Bridge,  
 Terms and their returns, the Sun and Moons rising and  
 setting, with Astrological Observations, and the probable  
 alteration of the Air.

Also the certain time of any Mart or Fair in any City or  
 Town in England, with a description of the most emi-  
 nent Roads therein.

To which is added Rules for Physick and Husbandry with  
 many other usefull Observations necessary for the com-  
 pleting such a work.

Calculated and referr'd to the Meridian of the famous  
 University and Town of Cambridge; where the Pole  
 Arctick is elevated above the Horizon  $52^{\text{d}} 17^{\text{m}}$  but may  
 serve for any other part of Great Britain.

By Nathaniel Culpepper Student in Physick,  
 and the Cœlestial Science.

*Nil difficilius quam de futuris  
 veritatem pradicere.*

The Law's a thing Divine, made to Repell  
 The sinfull Lusts of such as do Rebell  
 Against Right Reason, Justice, Faith, their Prince,  
 And for the wronged man is a defence.

It's use is to Correct and keep in Fear,  
 Such as don't value what they do or Swear.

There is not any thing which can promise to it self a lasting Quiet: and it is no small comfort to us, the certainty of our Fate, for it is folly to Fear where there is no Remedy.

The Wise Fortifie themselves by Reason, and shun by Despair. Wild Beasts when they see their dangers fly from them, and when they have escaped them are Quiet: But a wretched Man is equally Tormented both with things past and to come.

Of the Eclipses of the Luminaries which happen  
this Year 1687.

**T**His Year (affords us) or produces onely two Eclipses  
and both of the Sun, the one of them happens before  
the Sun's Apogzon and the other after it, and both of them  
almost Central, so that there can be no Eclipse of the Moon  
this Year.

The first Eclipse of the Sun will be upon May day, near  
Noon in *Taurus*, near the *Pleiades*, 'twill be no great Eclipse  
and yet visible to us.

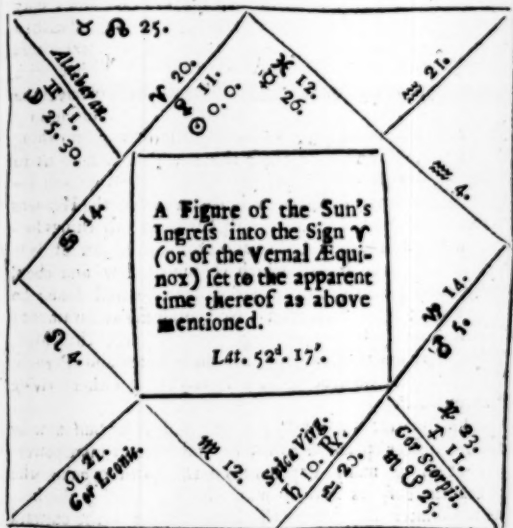

The second falls *October* the 26<sup>th</sup> day, about 6 in the  
morning, and will be a great Eclipse but not visible to us  
in *England*, in regard 'tis near over before the Sun rises  
to us.

---

☿ Note that *Venus* is our bright Evening Star this Year  
from the 24 day of *January*, to the 8 of *November*.

# Culpepper 1687.

**T**He Spring Quarter this year begins according to the correct observation of our best Astronomers March the 10<sup>th</sup>, at 10<sup>h</sup>. 55'. in the morning; a Scheme is here inserted for the satisfaction of the curious.

*Brief Observations upon the Scheme, chiefly for the Information of the young Student, of which (doubtless) this Nation affords many.*

**T**His position of the Heavens hath many remarkable things therein, viz. 1. The ♀ Lady or Ruler of the Horoscope (or rather Ascendant) is in ♈ to ♈ Ruler of the 10 House, or Angle of Honour, 2. ♀ is in ♈ to old ♈, 3. ♀

## Calpepper 1687.

2. ♀ is in ☐ Aspect to ♂ his Disposer, 4. ♀ is hastning to the ☿ of the ☉, being already Combust, 5. the three Superiours are all in their own Essential Dignities, 6. ♀ and ☿ are in their Debilities, though Angular, *cum multis aliis.*

From hence a long discourse might be deduced, since there is plenty of matter in the Scheme, as Peace and Plenty in abundance, and yet we live in a repining dissatisfied Generation. But, *Quod supra me nihil ad me: fors omnia versat.* I shall therefore conclude this short Theme with the sayings of wise *Seneca*; viz. That whoever observes the  
 “ World and the order of it, will find all the motions in it  
 “ to be onely a vicissitude of Falling and Rising, no thing  
 “ extinguish’d, and even those things which seem to us to  
 “ perish, are in truth but changed, the seasons go and re-  
 “ turn, Day and Night follow in their courses, the Heavens  
 “ rowl, and Nature goes on with her work, all things suc-  
 “ ceed in their turns; Calms and Storms, the law of Na-  
 “ ture will have it so, which we must follow and obey,  
 “ accounting all things that are done to be well done: So  
 “ that what we cannot mend, we must suffer and wait upon  
 “ Providence without repining. And observe that Men,  
 “ Nations, and Cities, have all their Fates and Periods,  
 “ and their is no true felicity in any thing either private  
 “ or publick.

This Quarter is naturally hot and moist, the Sun now by a more neerer approach to us, his Influence is more powerfull exhaling many Vapours from the Earth opening the pores thereof, as also of man’s body, drawing the heat which Winter inclos’d in the inward parts, to the outward members, whence in Trees and Plants the sap leaves the roots, and is exhal’d into the branches, and the heat in man stirs up the Cruder Humours, causing a great commotion in the body, and extending to the outward parts thereof; the Diseases produc’d are usually Tooth-ach, Agues, swimming and Giddiness of the Head, Pain in the Eyes, Lungs, and Joynts, many Fluxes, Scabs, Rushes, Itch, Measles, Small-Pox, &c. The best way to preserve Health is to live temperately, and to use a moderate diet and exercise. The Diseases of

## *Culpepper 1687.*

of this Quarter usually proceed from corruption of Bloud which now begins to abound, and now is the onely proper time for Phlebotomy and Purging of all noxious humours which are the Original Causes of all Bodily Diseases, therefore consult the Learned Physician in time.

### *Of the Summer.*

**T**HE Summer Quarter begins this Year *June* the 11<sup>th</sup>, about 10 in the morn. at which time the Sun enters the Tropical Sign *Cancer*. This Quarter is naturally hot and dry. Now the Stomach doth not digest meats so well as in the Winter Season, and therefore a sparing diet should be chosen: Now the pores of the Body are most open, therefore take care of sudden Colds, or drinking cold liquor when you are hot: Now Fruit and Herbs have their crude and superfluous humours exhaled, so as they attain more perfect maturity: Now the Cholerick Humour abounds more than in any season. Heat is now at the highest pitch, the Winds lowest, Sea calmest, the Fruits of the Earth are brought to perfect maturity and ripeness, and all kind of Cattle to fatness. Now Merchants and Marriners do undertake voyages to bring home Forreign Commodities, and increase their wealth, Now Flowers and Fruits are the most pleasant, and the Birds most melodious and joyfull, &c. The Diseases most prevalent on mens bodies this Quarter, are Burning Feavers, Phrensie, Madnes, Apoplexies, Inflammations of the Eyes, Ulcerations of the Mouth, Aposthumes, Pain in the Bladder, Fundament or Privities, with many other distempers proceeding from slimy and sharp humours, especially amongst the Younger Sort, that is, from 20 to 30 years of Age, nor is it a convenient time to take Physick, unless necessity urge or in cases of extremity, and then not without good advice of the able Physician. Now since at this time all hot diseases rage in the body therefore beware of surfeits. Now cooling herbs and meats and drinks, Strong Waters or Wines are carefully to be avoided, or drank very sparingly if you are willing to continue health.

Culpepper 1687.

Of Autumn.

**T**HE *Autumnal Equinox* or Harvest Quarter begins when the Sun toucheth the first point of *Libra*, and commences this Year the 13<sup>th</sup> day of *September*, about 2 in the morning. This season is naturally cold and dry, and the Harbinger of that oppressing tyrant *Winter*: Now the beauty of the Earth begins to fade, and our Common Grandmother resigns her rich robes wherewith she was before by the goodness of the Spring adorned, laying them up in the wardrobe of nature, to resume them again when the violence of winter is over. The Bodily Diseases whereunto man's frailty is obnoxious unto, this Quarter are more than many; and almost all that can be nam'd; but the chief are Obstructions of the Breast and Lungs, Chollicks, Sciatickes, and Joynt Aches, also Consumptions, Dropfies, Coughs, Fistulas, Bitches, Scabs, Fluxes, &c. To prevent Diseases, eat meats moderately warm, and drinks use also of the same quality. Beware of opening the pores of the body too much, thereby taking in dangerous or infectious air or atoms which may prove of ill consequence.

Of Winter.

**T**HE *Winter Quarter* or *Solstice* begins always when the Sun having finished his greatest Southern Declination, makes his approach to us again; and at the same time makes the greatest quantity of Shadow, and least portion of Sun-shine unto us, (as the contrary in all respects when he touches the Opposite or Northern Tropick) so that now the Sun touches the first scruple of *Capricorn* the days are shortest and the nights the longest with us. This Quarter commences the 11 day of *December*, about half an hour past One in the afternoon. The natural temperature of this Quarter is cold and moist, 'tis an uncomfortable Season and too frequently dangerous to Travellers both by Sea and Land, and more troublesome to old persons than to young, by reason

## Culpepper 1687

son that lively heat of youthfull bloud doth mitigate and resist the superfluous malignancy of cold moist Humours, whereas the coldness of Age is Aggravated thereby. Now the pores of the body are shut and cold<sup>d</sup> meats and drinks are unwholesom, and no Physick is now to be taken unless necessity urge. The Diseases incident to this Quarter are Agues of all sorts, Gouts, Sciatica's, and other Aches ingendred by Rheumatick Matter distilled into several parts of the body, whence stiches in the sides, Palsies, Cramps, Coughs, Hoarsness, Windiness, Obstructions in the Breast and such like diseases; use therefore meats hot and dry commixed with hot Spices, as also Wine or Strong Drink will now, being taken moderately, much fortifie the spirits, and support the Body from danger of Cold, and such casual disasters incident in this season. Now,

*The Earth doth grieve because she must entomb,  
The seed she bare again within her womb.*

---

### *Advertisement.*

**T**Hose highly approv'd and onely true Spirits of Scurvy-Grass Plain and Golden, famous for the Cure of the Scurvy, Dropsie, and several other General Distempers, are still exactly and faithfully prepar'd by Mrs. Martha Hooker Executrix of Mr. Robert Bateman, at her House in Paul's Chain near Doctors Commons, London. Price one Shilling each Bottle, the Bottles being seal'd with his coat of Arms, The Half Moon and Ermins; with Printed Directions to each Bottle, which is to prevent your being cheated with Counterfeits that are lately started up, which notwithstanding all pretences our own experience tell us that these are the true Spirits.

*usefull*

# Culpepper 1687.

## Usefull Notes in Astronomy fit to be understood by the Younger Students therein.

1. The Sydereall Revolutions of the Planets about the Sun, as also his about his Axis.

				Their proper Diurnal Arches				
Days		h.	'	"	degr.		'	"
h,	10759	6	36	26	h,	0	2	0
♂,	4332	12	20	25	♂,	0	4	59
♂,	686	23	27	30	♂,	0	31	27
☉,	365	6	8	30	☉,	0	39	8
♀,	224	16	49	24	♀,	1	36	8
♀,	87	23	15	53	♀,	4	5	32
☉,	25	9	30	00				

2. The Planets Magnitudes compared with the Earth.

h	298	} times as big as ☉
♂	577	
♂	$\frac{1}{13}$	} parts of the ☉.
♀	$\frac{1}{13}$	
♀	$\frac{1}{27}$	

3. The Planets apparent Diur. Mot. when swiftest.

	d.	'
h	0	8
♂	0	15
♂	0	46
☉	1	1
♀	1	15
♀	2	10

4. The Relation of ♀ & ☉ on their Axis.

	h.	'	"
♂	9	55	58
♀	23	00	00

Note, that h, ♂, and ♀, appear always swift in Motion when in ☉ with the ☉, and ♀ and ♀ about their *Perigæon* with him, for then the ☉'s motion is also wholly attributed to them, which daily Arches of the Earth's motion tho' almost Equal in themselves, do augment the other Planets motions according to their distances from it, so that tho' a Planet move always slowest in his Orb when in his *Aphelion*, and swiftest when he is *Perihelion*, and would appear so if beheld from the ☉, yet to us beholding them from a moveable place remote from the ☉ or centre, they appear still swift in ☉ with the ☉.

Ex.

## Culpepper 1687.

### Excellent Notes of Husbandry and Gardening for each Month in the Year.

#### January.

IN this Month cut down Timber and it shall not cleave nor be eaten with Worms: in the last quarter of the Moon set or sow Kernels and Bay-trees, Primer and Box; set Quick-sets, Rose-trees, Peaches, Philbergs & Plumb-trees, if the frosts be not too hard, prune and lop them: before full Moon sow and set Beans and Pease, and dung Land: in the last quarter geld Cattle to rear, fallow Land for Wheat and Rye, trench Gardens with dung, and remove Bees: and for your own health keep your body warm, let good and wholsom Diet be your Physician, moderate exercise and labor your sawce to caufe Appetite.

#### February.

Sow all sorts of Pease, and other Pulse; sow Mustard-seed, cast up Dikes, set & plant Vines, Hops, Goosberries, and any Fruit that grows upon Bushes; prune and trim all sorts of Fruit-trees from Moss, Canker, and all superfluous branches, graff in the latter end of the Month, sow Onions in cold stiff Land, take heed of cold, forbear Phlegmatick meats.

#### March.

In the new of the Moon (the wind any way but South or West) graff Pears, Wardens or Apple-trees, make an end of sowing all manner of Pulse, and begin to sow Oares, Barly, Parsnips, Onions, Carrots, Cucumbers, Melons, and all kind of Pot-herbs, slip Artichocks and Sage, geld Lambs, let Blood according to strength and necessity, the Sign and weather being also fit (but repair to the Learned Physician) look what cannot be cured in the Spring by Physick, will hardly be cured all the Year after.

#### April.

Sow Barly, Hemp and Flax, Pole Hops, set and sow all kind of Garden Herbs, open Hives, and let Bees labour for their living, let Tanners now provide them with Bark, and all good Housewives look to their Daries, bleed and purge with advice: those that are troubled with Aches or the Gout, let them go to the Bath in this or the three following Months.

#### May.

Sow Barly on all light Lands and bearing Grounds, and Hemp and Flax, and all manner of fine Seeds and Herbs, take Lambs from their Dams, stir Land for Wheat and Rye, leave lopping of Trees, teach Hops to climb, but cut off the superfluous Branches: rise early, walk the Fields, especially by running Streams: Sage and sweet Butter is now an excellent Break-fast; Sage and cl rised Whey, as also Scurvy Grass Ale, and Wormwood Beer, are wholsom Drinks to be drunk fasting.

#### June.

Sheer Sheep, bring home Fewel, weed Corn and Gardens, set Rose-mary, Carnations and Gilly-flowers; sow Lettice and Radish-seed three or four days after the Full, for then they will not run to seed, make Hay, carry Sand, Lime, Marle and manure of what kind soever, retying your Land, cut neither Hedge nor Tree in this and the two

next

## Culpepper 1687.

next Months, beware of great thirst, use thin and light Diet, moderate exercise, and chaste thoughts.

### July.

Make your Hay and house it while it's fair weather, pull Hops that is ripe, gather Garden Beans, get Rue and Wormwood, and cast to strow on your Floors, to destroy Moths and Fleas, since your Coughs, use moderate Diet, take heed of great thirst, for nothing brings the Pestilence or pestilent Diseases sooner than extreme thirst, fervent heats, and cold taken suddenly upon them, take no Physick bleed not but upon violent occasions.

### August.

Follow close your Corn Harvest, sow winter herbs in the new of the Moon, gather Garden-seeds, mow Barly and Oats, gather your Summer-fruits, refrain from sleeping in the day time after Meat, avoid riot and excess.

### September.

In the beginning of this Month and end of the former, gather Hops when they wax brown, the weather being fair and no dew on the ground, kill Bees, make Verjuice, sow Wheat and Rye, reape and set all slips of Flowers between the two Lady days, put Swine mast, remove Trees every new Moon from September till February, especially in the new of the Moon, the weather fair and warm, and South or West, use Physick moderately, forbear Fruits too plentiful or rotten, shun riot and excess of Diet.

### October.

Sow Wheat and Rye, the sooner the better, for fear of rain, get Acorns and Nuts, gather winter Fruit, the weather dry, in the afternoon, and in the wain of the Moon, cut Rose-trees if you desire to have store of Roses, do this once in two years, refuse not any needfull Physick at the hands of the Learned, and use all moderate Sports to revive the vital Spirits,

### November.

Make Malt, kill Hogs, trench Gardens with dung, set Crabb tree-stocks, sow Wheat and Rye in exceeding hot sandy Grounds, cut down Timber for Plows, Carts, and other Implements for Husbandry, use wholesome Meat and Drink, with good exercise to preserve health.

### December.

In this and the next Month cut down Timber, in the last quarter of the Moon uncover the Roots of Fruit-trees: set Beans and Peas, cover all the best Flowers and Herbs from Frosts and Storms with old rotten Horse-dung, look well to your Cattle, water and keep moist your Meadows, let Horses bloud, and drink good Wine and Strong Drink, keep thy Body warm clad, thy House warm and dry, cast all care from you, and relieve those that are in want with thy Charity: Thus have I ended these Observations which are laid down for thy advantage, make good use of them, and give God the Glory.
